Audio Conferencing

Dialogue Direct

A reservationless conference call service that provides the host with the flexibility to initiate conference calls as they are required. Having this flexibility is made possible with the use of a unique passcode and dial-in number, providing unlimited access to the conference bridge 24 hours a day, 365 days a year.

Dialogue Plus

Our operator-assisted services offer professional and dependable support to ensure the success of your critical meetings and events while providing a first class experience to your participants.

Webcasting

We offer a complete range of broadcast-quality webcasting services, with unlimited customization to broadcast all your corporate events over the Internet.

Web Collaboration

Adobe Connect

Web conferencing for meetings, e-learning, and webinars on virtually any device. Meet anyone instantly to share presentations, applications and multimedia content. Whether for small conferences with a few colleagues or larger events, Flash@-based technology can accommodate your needs.

Citrix GoToMeeting

A unique and revolutionary online meeting product that makes it easier to benefit from the value of online meetings, webinars and training. Users can easily present, collaborate and demonstrate any application in real time to significantly improve communication.

Cisco WebEx

Whether you use it for web meetings with your clients or in-house, WebEx offers a full suite of collaborative applications which respond to your needs and help improve the efficiency of your organization's business communications.

Video Conferencing

Dialogue Video

Make your video meetings as simple and effective as holding an in-house meeting. With the latest in video technology, high quality customer service, and extensive global coverage, Dialogue delivers successful videoconferencing meetings anytime, anywhere.

Room Rentals

Save time, money and the environment. Over 3000 videoconferencing facilities at your service worldwide! We provide access to thousands of public and private certified videoconference facilities in every major city around the world.

Equipment

From the boardroom to the auditorium, Dialogue Conferencing offers a complete line of voice and video conferencing equipment to meet your needs and enhance your business communications.
